FAQ's

What are the application requirements?

Candidates to the joint degree pathway must meet the entrance requirements established by each individual program. Please visit IMBA.FIU.EDU for the IMBA admission requirements and MSF.FIU.EDU for the MSF requirements. As an IMBA student, you must have a B or higher on all Finance classes to be considered for the MSF.

Do I apply for both programs at the same time?

No, you should only apply for the program you plan to start with. You will submit an application to the second program no later than the second to last semester in which you are expected to complete your original degree requirements.

How do I know the tuition for both programs?

You will work with the Program Manager of each individual program to receive a tuition estimate. Your tuition will be lowered based on the courses in common between both degrees.

As an international student, what are the visa requirements?

You will need to provide a bank letter, Declaration of Finance form and a sponsor letter for both programs. As you enter the second program, you will also be asked to submit an F1 transfer form. Once you are accepted and your visa documents have been received, you will work with our International Student and Scholar Services office to extend your I-20.

Will I receive my diploma after I complete the first program?

Joint degree pathway candidates will not receive either degree until all requirements for both programs have been satisfied. Students deciding against completing a second degree must satisfy all requirements for the first program as if the student had never been a joint degree candidate. A student will attend one commencement ceremony for both degrees once all graduation requirements are met.

FIU's College of Business is among the 5 percent of elite business schools worldwide accredited by the AACSB International - The Association to Advance Collegiate Schools of Business.
