INTERNATIONAL COLLABORATION OPPORTUNITIES

UNDERGRADUATE ARTICULATION

Our undergraduate articulation programs allow students the opportunity to transfer courses from their home school to a bachelor-level program at FIU Business, with the possibility of transferring courses back for a second degree from the home university. Undergraduate students typically complete 2 years at the partner university and 2 years at FIU.

GRADUATE ARTICULATION

Our graduate articulation programs allow students the opportunity to transfer courses from their home school to a master-level program at FIU Business, with the possibility of transferring courses back for a second degree from the home university.

TRADITIONAL STUDENT EXCHANGE

FIU Business and Office of Study Abroad have developed a comprehensive array of international programs including exchange opportunities where students can spend a semester or year with us.

OUTBOUND SHORT-TERM PROGRAMS

We are seeking opportunities for FIU Business students to choose to spend one or more weeks studying, for credit, at an institution in our international network.

INBOUND STUDY TOURS

FIU Business is preparing a portfolio of inbound study programs for summer and winter. We are currently gauging partner interest to determine what courses will be offered and how this program will be designed.

EXECUTIVE & PROFESSIONAL EDUCATION PROGRAMS

Students and business executives from around the world each year come to FIU Business – either in person or remotely – to enhance their knowledge and understanding of global business, management, innovation and entrepreneurship. These programs are designed to meet our partner institutions' needs.

OUTBOUND SUMMER PROGRAMS

FIU Business undergraduate- and graduate-level students have the opportunity to spend their summer studying abroad. These programs can range from 2-12 weeks.

OUTBOUND STUDY TOURS

Several of the graduate-level programs at FIU Business participate in outbound study tours of 1-2 weeks. We are exploring opportunities with our partners to host these experiences.
