Florida International University's College of Business Administration is the only Florida school to earn a top fifteen spot in the category of international business in Americas Best Colleges 2009. The eleventh-place ranking marks the fifth consecutive year the college is well-known for its international programs, diverse students, and services in the top fifteen in the category. These impressive rankings show the success of the efforts of our students, faculty, and staff, said Joyce J. Elam, executive vice president. "We are very proud of the motivation to continue the momentum of strengthening the programs, services, and opportunities we offer in the international business area. We are very committed to excellence this year. The annual ranking is considered a key reference tool for students and families evaluating top-quality collegiate programs."
