Florida International University's Chapman Graduate School of Business has one of the top 25 MBA programs in the world, according to an annual survey magazine.

The ranking puts FIU above other prestigious schools such as Boston University, Tulane, Dartmouth, Duke, Georgetown, and the University of Texas at Au

The publication, which ranked FIU 22nd, bases its evaluation on five criteria applied to each school's full-time MBA program: the school's prestige, network, American region, and cost.
